

Let's Sing a Song

Bobby Vinton

Let's sing a song that makes the whole world happy
With everyone singin', nothin' can't go wrong now
Let's sing a song that makes the whole world happy
Give in to the music, let it make us strong now

Somethin' is missin', we gotta find it
While we still have got us some time
Somethin' is missin', we gotta find it
If we wanna make it alright

Now there's one thing that my mama told me
I can do when I'm feelin' sad
She would whistle and start a-hummin'
Makin' things seem not quite as bad
So now

Let's sing a song that makes the whole world happy
With everyone singin', nothin' can't go wrong now
Let's sing a song that makes the whole world happy
Give in to the music, let it make us strong now

If you are worried or feelin' lonely
Take the time to look in your mind
You'll find a song that has always been there
You just have to give it a start

So, start a-hummin' and keep it comin'
Stop the rain to sunshine
Just remember it's not a new thing
It's been buried deep down inside
So now

Let's sing a song that makes the whole world happy
With everyone singin', nothin' can't go wrong now
Let's sing a song that makes the whole world happy
Give in to the music, let it make us strong now

Let's sing a song that makes the whole world happy
With everyone singin', nothin' can't go wrong now
Let's sing a song that makes the whole world happy
With everyone singin', nothin' can't go wrong now
Let's sing a song that makes the whole world happy
With everyone singin', nothin' can't go wrong now
Let's sing a song that makes the whole world happy
With everyone singin', nothin' can't go wrong now
