

So Many Lonely Girls

Bobby Vinton

(So many lonely girls)

So many lonely girls, so many lonely boys
There ought to be a place to change their lonely worlds
So many lonely girls, so many lonely boys
There ought to be a way to change their fears to joy

There ought to be a place where lonely hearts can go
And find that special look that lovers only know
I'm such a lonely boy, if you are lonely too
Please come with me and find the love I'll share with you

(So many lonely girls)

I'm such a lonely boy, if you are lonely too
Please come with me and find the love I'll share with you
