

Why Can't I Get Over You

Bobby Vinton

Try forgetting it's no use
Just can't cut my poor heart loose
Wish that you were here with me
Hope's another memory

Why do I do crazy things
Every time the doorbell rings
Why can't I, why can't I get over you?
Why can't I, why can't I get over you?

Try to chalk it up to fate
But my mind won't take the bait
Can't forget what used to be
Hope's another memory

I just sit around and look
'Cause I know there is no hope
Why can't I, why can't I get over you?
Why can't I, why can't I get over you?

The hurting's stopped, the pain is gone
Gonna be able to carry on
But at the mention of your name
The pain is back again

I'm back where I started from
Dreaming that someday you'll come
Begging me to let you stay
Softly I will hear you say

Try forgetting it's no use
Just can't cut my poor heart loose
Why can't I, why can't I get over you?
Why can't I, why can't I get over you?

La, la, la...
La, la, la...
La, la, la...
Why can't I, why can't I get over you?
Why can't I, why can't I get over you?
