

Come L'Amore

Bobby Womack

Try love
Oww, you oughta try love, oh, yeah

Like love, like love, come l'amore, ooh
Like you, like me, come l'amore (well, well, well, well)

Little girl, I know you're always, you're always remembering when
Don't you know, the first time never the first time again
Yesterday is yesterday, tomorrow who knows?
Don't you know we get older and wiser
And that's how it goes?

Like love, like love, come l'amore (can I say it one more time?)
)
Like you, like me, come l'amore

It's a game, well, we'll just play
Play it to the end
'Cause a blind man can see that you're gonna be
More than just a friend, ay

Like love, like love, come l'amore
Gotta say it one more time
Like you, like me, come l'amore

(What the world needs now is a little more love) what the world
needs now, love

Wow
You need it, I know I need it (what the world needs now is a little more lovin')
You better try, try, try love

(Like you, like me, come l'amore) I can't stand it, baby
Whoa, ooh, whoa, yeah
(Like you, like me, come l'amore) I need it
You need it
Listen to me, gotta have love

(What the world needs now is a little more love) in your walk,
a little more love
In your talk
Try love
(What the world needs now is a little more love) in your smile,
try love
If it's only every once in a while, try love

Like you, like me, come l'amore (woow)

Like you, like me, come l'amore (try love)
