

Honey Dripper Boogie

Bobby Womack

Here I go again
Look like I'm going again
Look like I'm going again

Sometimes temptation
Gets the best of you
The more you try to fight it
The more you seem to lose
Now you take some funky music
Does it make you wanna groove?
Find yourself a partner
The funkied and boogie too
Here is what you gotta do

Find yourself somebody that wanna boogie
Someone that feels the same way you do
Ain't no way I could ever see you losing
Just want to feel it working up on right through you
Through you
Through you
Through you

Find
Find someone to boogie
Say what?

So, temptation
Got the best of you
The more you try to fight it
The more you seem to lose
Here is what you gotta do

Find somebody that wanna boogie

Ain't no way I could see you losing
Just want to feel it working up on right through you
Through you

All night long

I don't mind
Somebody to boogie
Boogie with yourself
