

I Can Understand It

Bobby Womack

I know everybody realizes that a man works
Better when he works out of his own band
Can you understand that? I can understand that

Woah, yeah, yeah
Something sweet as a candy bar
My girl in need
That's what you are
Oh, I, I can understand it

Jack and Jill going up the hill
Storybooks and fairytales
I, I can understand it

And if our love gets to be anything but this
If someone gets to feel your warm and tender kiss
Oh, tell me, baby, how will I ever understand it, baby?

Get on down, baby
Gonna do it on the good foot, yeah
Gonna do it on the right foot, baby
Gonna do it on the left foot, baby

Look here, yall
Something cool but not too cold
Girl, you got to give to get, you know?
I, I can understand it

Try my best to make you happy
Woke up early one morning, find you packing
Lord, Lord, Lord, you can't make me understand it

I know sometimes that you wanna get away from home
But I get upset when you stay too long
Oh, your love, baby, your love
How will I ever understand it?

Get on down
Gonna do it on the good foot
Gonna do it on the right foot, baby
Gonna do it on the left foot
Ooh baby

I can understand it
Baby, I can understand it
Oh, I have no choice about the situation

But I'm trying my best to make you happy
Wake up early one morning and I find you packing
Lord, you can't make me understand it

I get a job and I work all the time
When I get home you better lay it on the line
Your love, baby, your love
How will I ever understand it?

Get on down

Gonna do it on the good foot
Gonna do it on the right foot
I can understand it
You do yours
I'll do mine
Can you understand it?
Can you understand it?
Can you understand it, baby?
I can understand it
Can you understand it?
I can understand it, baby
Can you understand it?
I can understand it, baby

Break it down
God Almighty
Lordy, Lordy, Lordy
Yeah

Im going to find out can we keep the groove
Is yall ready for this?
Look here
Ooh, yeah, baby
I can understand it, oh
Can you understand it?

Baby, baby, baby
Get on, get on, get on, get on down
Do in on the good foot, there it is
Lordy, Lordy, Lordy
Look here yall
Don't put down a man with a better hand
Old Les trying to do the very best he can
You wear your hair long, baby
I wear my hair short
Come on, baby, talk that talk
I can understand it
Can you understand it?

Baby, Baby, Baby
Get on down
Look here
Gotta say it one more time
Lordy, Lordy, Lordy
Look here
Don't put down a man with the better hand
Old Les trying to do the very best he can
You wear your hair long, baby
I wear my hair short
Come on, baby
Talk that talk
You gotta
I gotta
You gotta
I gotta
You gotta
I gotta
You gotta
Hey, Baby

Yeah, look here
Can I say it?
Can I say it now, yall?

Can I say it?
Can I say it
Look here yall
I can understand it
