

# The Roots in Me

Bobby Womack

Where have I been  
Oh I've been around  
See I have my ways to believe in me  
On my own time  
And every now and then  
We all have to get away  
Break away to find ourselves  
Sometimes you get lost along the way  
But I'm standing to all this as master plan  
All we gat to do is follow through  
You know I often wonder sometimes  
What does it profit a man  
To gain the world  
And lose his soul  
Listen to me now

I've been stripping away from reality  
I'm not too far away from the roots in me  
It's all about you and me yeah  
I know that it won't be like yesterday  
Cause I'm seeing it all  
In a different ways  
Funny, funny, funny how I can change it all  
When you watch the floor this lady almost fall

Oh I'm far away from reality  
Too far away from the roots in me  
Girl all the time you and me  
Talking 'bout the roots in me  
Talking 'bout you and me  
Are you talking 'bout you and me baby  
Talking 'bout roots in me  
Talking about you and me  
Sounds so blunt to me baby, say it again

It's easy too this way  
That the greener light, is here sometimes  
Cause the light we have is blinking  
Everything is going right  
But I can't over look  
Can't over look  
Can't over look the tears I see  
Oh I've been specially with no season  
Seen every road by me

I can't get away from the best in me  
Until it's alright 'bout you and me  
Honey about you and me yeah

We all in our way out to get it  
We making memories  
Let just think about it  
Some people spend a life time  
Trying to get it together  
You see all you gat to do  
Is just find your way, something you can work out on  
The thing that you need in life

And I know, (through the roots in me)  
You've not talked to someone in a while  
Help me explain myself  
(Through the roots in me)
