Potential

Bobi Andonov

My potential
I want you to shape it
Shift your focus
Lookin' at me shameless
Be my teacher
Testin' my patience
Can you see...

From a distance
I just caught your interest
My hopes up

Make me wonder
Make me guess what's under
You're so rough

Even if I
Read your mind, now I know you're pretendin'
Wanna see where you hide, what I'm missin'
Would I drown if I dive under your skin
Can you see my

My potential
I want you to shape it
Shift your focus
Lookin' at me shameless
Be my teacher
Testin' my patience
Can you see myyyyy

My potential
I want you to shape it
Play so wild I
Wish you'd let me tame it
Get my hopes up
Makin me so anxious
Can you see my

Invitation
Girl don't be ashamed, make
Up your mind

Almost taste it
Please don't let me waste it
Baby just embrace it

Even if I
Read your mind, now I know you're pretendin'
Wanna see where you hide, what I'm missin'
Would I drown if I dive under your skin
Can you see my

My potential
I want you to shape it
Shift your focus
Lookin' at me shameless
Be my teacher

Testin' my patience
Can you see myyyyy

My potential
I want you to shape it
Play so wild I
Wish you'd let me tame it
Get my hopes up
Makin me so anxious
Can you see my

Can you see my
Can you see my
