

## 4 the Last Time

BoDeans

Well I guess you had to go  
To the rich and beautiful  
Leave me here alone  
Tapping on this cold phone  
It's lonely in this room  
It's hard to believe and still  
I get on my knees and pray  
If I only had the will

And I've fallen for this old trick of yours  
For the last time I know  
Fallen for this old trick of yours  
For the last time I know

And oh you'd come and go  
Like raindrops that fall to the ground  
There's no stopping gravity  
As it's falling down  
There's something you need to know  
To take with you on your way  
With your stockings and all your bags  
And everything we lost today

And I've fallen for this old trick of yours  
For the last time I know  
I've fallen for this old trick of yours  
For the last time I know

We're falling down breaking in pieces  
Baby, we're falling down breaking into pieces

And oh  
I've fallen for this old trick of yours  
For the last time  
For the last time
