

Well do you ever think about me?  
When it's late, late at night and you're trying to sleep  
But you can't because memories are like ghosts in the night  
And they're haunting you to stay alive  
They know that if you sleep, they can die, and I  
Well they're haunting me too down on 3rd Avenue

Yeah, 617 that's where I'm living  
Apartment E up on the 6th floor  
Where you have to sleep with your decisions  
Where something inside of me just will not let me go  
I wish I could explain it better, but I can't  
I'm just living with true down on 3rd Avenue

Yeah, 617 that's where I'm living  
Apartment E up on the 6th floor  
Where you have to sleep with your decisions  
Where something inside of me just will not let me go  
Baby goodnight, goodnight baby, baby goodnight

I guess if you were young, things would happen

They put our dears in our mind  
Put a shape to our lives  
That can hope home forever  
We're not strong enough to break away from the chains and the pain  
They say that time will heal everything, but I  
Well, I don't know if that's true down on 3rd Avenue

Yeah, 617 that's where I'm living  
Apartment E up on the 6th floor  
Where you have to sleep with your decisions  
Where something inside of me just will not

Yeah, 617 that's where I'm living  
Apartment E up on the 6th floor  
Where you have to sleep with your decisions  
Where something inside of me just will not let me go  
Baby goodnight, goodnight baby, baby goodnight  
I miss you sometimes late at night  
I said baby, baby, baby  
You have to sleep with your decisions  
You have to sleep with your decisions  
You have to sleep with your decisions
