

A Little More Time

BoDeans

Yeah I know that you're a lot like me
Born different from the start
Always leading straight from the heart
They couldn't tear us apart

You used to point at all the stars in the sky
I'd pretend I couldn't see them
Running through the rain, the wonder and the pain
I hope you don't forget about me

So come on baby don't you remember
We're not the usual kind
So come on baby won't you give me just a little more time
It'll all be fine
With just a little more time
Let the river unwind

Seekers searching always trying to find
Something better than right now
Ain't no secret to the mystery
But they're missing it somehow

So come on baby don't you remember
We're not the usual kind
So come on baby won't you give me just a little more time
It'll all be fine
With just a little more time
Let the river unwind

So come on baby don't you remember
We're not the usual kind
Come on baby won't you give me just a little more time
It'll all be fine
With just a little more time
Let the river unwind

Just a little more time
It'll all be fine
With just a little more time
Let the river unwind

With just a little more time
Let the river unwind
