

# All Better Days

BoDeans

I was wandering yesterday by a place  
We used to hang  
Oh how long has it been  
Oh I miss you now my friend

It used to be really real not just in word  
But how you feel  
Oh how long has it been  
Oh I miss you now my friend

Sha la la la la la la  
Here's to your own way  
Sha la la la la la la  
Here's to all better days

I'm playing with a ballpoint pen  
Watching the planes fly in  
Yeah I watch 'em fly away again  
I miss you now my friend

In the sameness of the day to day  
That's when change is made  
Oh how long has it been  
Oh I miss you now my friend

Sha la la la la la la  
Here's to your own way  
Sha la la la la la la  
Here's to all better days

Sha la la la la la la  
Here's to your own way  
Sha la la la la la la  
Here's to all better days
