

All the World

BoDeans

Feel like stars in the sky
All alone
Long Long time
And there in the air
Like afraid
Just waving the frown to the sound
Of the priest
Which you wanna come down to the ground
Its time
You start foolin around
And I don't wanna dwell anymore
Just settled the score
Ran away
By the gate
It's passing me by
You know we
Should agree
It's reason to move
On ahead
This way
Move forward
Guess I know
This thing
Can't go on
So I sing
This song
So long
For the memories
Backup"chorus" nah na na nah na na nah...
Beautiful night
All the world felt right
Beautiful night
All the world felt right
Felt like a fool
In a lie
Like a poem
Losing game
And played up and down
All around
The pieces were changed

And now I know
I gotta go
There's a reason to move on ahead
This way
Move forward
Guess I know
This game
Can't go on
So I sing
This song
So long
For the memories
Backup "Chorus" Nah na na nah na na nah...
Beautiful Night
All the world felt right
Beautiful Night

All the world felt right
All I know
This game
Can't go on
So I sing
This great dumb song
Yeah
Backup "chorus" Nah na na nah na na nah...
Beautiful Night
All the world felt right
Was a beautiful night
Yeah
All the world felt right
Beautiful Night
Ohhh
All the world felt right
Yeah
Beautiful Night
All the world felt
Right right right
All the world felt right
ALLLLLLL the world felt
Right right right
