Angels

BoDeans

Well, I'm going down the street
Going to see Sadie
To let her know she's my baby
And I'm tired of the games she's been playin' on me

Well, I maybe young
And foolish inside
But, I'm the one and I've got my pride
And here tonight love's gonna be alright

Well, come on little baby
Come on out and see
There's the whole wide world
Waiting on you and me to Hell, you'll see

We ain't got to worry tonight
We ain't got to run, it's alright
They don't let
No, angels out at night
Na, na, na, na, na

We ain't got to worry tonight
We ain't got to run, it's alright
They don't let
No, angels out at night
Na, na, na, na, na

You said "I got a chance, reaching your hands"
And I ain't the one
Gonna end up your man
But, there's one thing that you gotta understand

That my love is real, baby, my love's true
Maybe it don't mean that much to you
But here tonight
Our love is gonna see us through

Well, come on little baby
Come on out and see
There's the whole wide world
Waiting on you and me to Hell, you'll see

We ain't got to worry tonight
We ain't got to run, it's alright
They don't let
No, angels out at night
Na, na, na, na, na

We ain't got to worry tonight
We ain't got to run, it's alright
They don't let
No, angels out at night
Na, na, na, na, na

Well, come on little baby
Come on out and see
There's the whole wide world

Waiting on you and me to Hell, you'll see

We ain't got to worry tonight
We ain't got to run, it's alright
They don't let
No, angels out at night
Na, na, na, na, na

We ain't got to worry tonight
We ain't got to run, it's alright
They don't let
No, angels out at night
Na, na, na, na, na

No, angels out at night
No, angels out at night
No, angels out at night
Hey, hey baby
