

# Beaujolais

BoDeans

Well, the night's comin' on like a soulful  
Song, a tuned-down melody  
Broken hearts, corner bar, wonderin' where you are  
Soakin' dreams and old memories  
Well, you begged me to stay  
Still, I ran away  
Too young, too foolish to see  
There ain't very much more than a touch of the love that you ga  
ve to me  
So, you bring on the night  
Baby, I'll be all right  
I promise not to feel no pain  
No I won't say a word of the lessons learned from  
Beaujolais in the September rain  
I'm lost thinking of our one night of love  
Beaujolais in the September rain  
Now, the years go by with the blink of an eye  
Memories, they stay the same  
And I think about you the whole night through  
Beaujolais in the September rain
