

Come Along Way

BoDeans

Lord I still can't believe we've come this far
It's been a long road from where we are
And the moments like children, they go on their way
Better hold on to something today

And we come along way in this living
Chasing our dreams and forgiving
Spending our time yeah living in heaven
Oh we come a long way
And there's a long way to go

Through the heart breaks and hopes and the trials of life
Baby true love will always survive
In the end it's all for family
Perseverance is all I can see

And we come along way in this living
Chasing our dreams and forgiving
Spending our time yeah living in heaven
Oh we come a long way
And there's a long way to go

And we come along way in this living
Chasing our dreams, oh forgiving
Spending our time yeah living in heaven
Come a long way
And there's a long way to go

We've come along way, baby
Come along way
You've come along way, baby
You come along way
