

Everyday

BoDeans

Well, I know that its only love that
Yes, I know that its only time that
Yes, I know that its only hope that gets you through

But it takes a little love to love
And it takes a little time for two
And it takes a little hope to hope you make it through

And world keeps turning (and the world keeps turning)
Your heavy heart (your heavy heart)
Your head around (your head around)

Well, I've never been one to pray
But I think I might try today
Say something for real, spoken truth
Lift it up toward the sky, know that I wanna try
But I need a little help to help me make it through

And world keeps turning (and the world keeps turning)
Your heavy heart (your heavy heart)
Your head around (your head around)

Yes, I know that its only love that...
Gets you through
Every day (every day)

And I'm hoping I can find a way
To a better and a brighter way
Everything that I do is right by you

Cause it takes a little love to love
And it takes a little time for two
And it takes a little hope to hope you make it through

And world keeps turning (and the world keeps turning)
Your heavy heart (your heavy heart)
Your head around (your head around)

Yes, I know that its only love that...
Gets you through
Every day...
(I know it's only love)
Everyday, every day
(That gets you through)
Everyday...
