

Fadeaway

BoDeans

Don't runaway
Midnight hideaway
Don't you fade away
'Til the Morning light

I see you from my window
In the shadows of the night
You're standing on Love Street
On the beat, of better things

Yeah, I'll see you standin' there
You don't care, anymore
And love in your life
Stabbin' knife in my heart

I see you from my window
In the shadows of the night
You're standing on Love Street
On the beat, of better things

Yeah, I see you from my window
In the shadows of the night
You're standing on Love Street
On the beat, of better things

I'll see you standin' there
You don't care anymore
And love in your life
Stabbin' knife in my heart

I see you from my window
In the shadows of the night
You're standing on Love Street
On the beat, of better things

I see you from my window
In the shadows of the night
You're standing on Love Street
On the beat, of better things

She might fade away, she might fade away
She might fade away, she might fade away
She might fade away, she might fade away
She might fade away, she might fade away
