Fool

BoDeans

Fool, fool, fool, fool

I said, who's that boy that you been running 'round with
That you been going down with?
Now, now, now just a little too far down, down, out

You know there?s rumors flying around, yeah
Flying to the streets of my town
And make me feel, make me feel like a big clown
They're coming, roll, roll at you, roll about you

Every time, every time I look in your eyes
I forget all about those dirty lies
And I forget all about the pain, I don't feel that

Hey, don't you know
That you drive me insane?
And don't you know
That I'm taking all the blame? Yeah

Yeah, I'm a fool for you, baby
I'm a fool for you, baby, yeah
I'm a fool for you, baby
Fool, fool, fool for you, baby, baby, baby

I said, every time, every time I look in your eyes
I forget all about those dirty lies
And I forget all about the pain, I don't feel that

Because girl, you got
Ooh, I said, you got, you got what I need
And even though I know I'm gonna bleed
I keep coming back for more, yeah, I need some more

Hey, don't you know
That you drive me insane
Yeah, don't you know
That I'm taking all the blame?

Ooh, I'm a fool for you, baby
I'm a fool for you, baby, yeah
I'm a fool for you, baby
I'm a fool for you, baby, yeah

I'm a fool for you, baby
I'm a fool for you, baby, yeah
I'm a fool for you, baby
Fool, fool, fool for you, baby
Baby, baby, yeah
