

## Freedom

BoDeans

You keep on building walls  
All around me  
Ball and chain and blindfold  
So I don't see  
Take me far away  
Leave me out cold  
But the people see the truth  
Let justice unfold  
So if you just hold my hand  
A little bit longer, understand  
The feeling gets stronger  
Yes, I do  
Yes, I can  
You can write your words down  
Full of despair  
You can celebrate your lies  
And see if we care  
'Cause people know the truth  
They feel in their hearts  
All the good things that we like  
We knew from the start  
I can't let my world get colder  
I'd be a better man  
I can see for miles around  
Hope you understand  
I believe in love  
I believe in free will  
I believe that people believe in it still  
Though sometimes we don't always see it so clear  
I believe it's strength will always be here
