

Good Work

BoDeans

Well I lost my job down at the factory
Lost my money in the lottery
Met a little girl walkin' down the street, I said
Ain't there any way to how to beat the heat
She said hey now little baby, love is all you need
I said workin' on love sounds good to me

Chorus

It's good work if you can get it
It's good work if you can get it
It's good work if you can get it
It's good work if you can get it
It's good work if you can get it,
Baby just let it work

Well, I'm playin' six string down at the corner bar
Be-bop-a-lula on a berry guitar
There was a big fat daddy in a cadillac
Sweet little angel ridin' in the back
Hey now mister nothin's gonna come for free
I said Playin' six string sounds good to me

Chorus

Sweet little Mary was just thirteen
Walkin' down the street she'd make a good man mean
Take a truthin' man and she could make him a liar
She could take the coolest cat and set his soul on fire
Hey there pretty babby got me down on my knees
Ya got me workin' every night babe' tryin' to please

Chorus
