

I'll Be There (Voodoo)

BoDeans

Outside loves in two
Holding on tight like people do
Inside love is a flame
Words don't work when we try to explain
And it all falls down
Fool baby, I'm your clown
When it all falls down, I'll be there
'Cause time keeps tricklin' away
We'll be together now, someday
Holdin' on for heaven's sake
Don't worry 'bout the time or the love we'll make
When it all falls down
Walls been closin' in
And I carry your heart of tin
When tears that fall like rain
Well, here we go baby, here we go again
Voodoo... I'll be there when you call on me
I'll be there when you fall
