

## If It Makes You

BoDeans

These are the dreams that we dream, these are the big and special things  
These are the days, come rain or shine - you and me and I feel fine

Cuz I can breathe when I'm standing here next to you it's always clear  
And I can breathe, and laugh, and sing if it makes you happy - then I'm happy too  
If it makes you beautiful, then I'm beautiful too

These are the walls that we climb, breaking the falls to the end of time  
These are the words the looks and touch and I never knew I could feel this much

Cuz I can breathe when I'm standing here next to you it's always clear  
And I can breathe, and laugh, and sing if it makes you happy - then I'm happy too  
If it makes you beautiful, then I'm beautiful too  
This darkness of night can see there's a light  
I can reach out my hand - touch a soul, I understand  
If it makes you...I'm happy too. And if it makes you beautiful
