

Stay On

BoDeans

I fear, I fear I've gone too far
Yes, I fear I've led you astray from way back when
Now I feel you again yesterday
And I hope, I hope, I do, I pray
I'm still headed to worlds where
I intended to be when I could see with way clearer eyes
'Cause this big wide open crazy world can get you downhearted
And wondering where you stand or fall, wondering why try at all
?
Well, I say stay on, stay on, steady now
Stay on, stay, don't you stray
I know, I know the time goes by
With a bleary blink of an eye
But I see, I do, for me and you
Living ends coming true
