

Texas Ride Song

BoDeans

I found a love, sweet and young
Out in the big open
Deep in the land of stars that shine
Bright like the heart she wore
I spent a lifetime on that road
She spent a life in town
And I said c'mon, she said right
Let's head for higher ground
Let's go shall we
On through the majesty
Let's go, you'd never know
But this was made for you and me, shall we
We hit the road, the big highway
With a heart full of soul and fire
making our way through America
In a ford on a two-cent tire
Let's go shall we
On through the majesty
Let's go, you'd never know
But this was made for you and me
We laid down under stars
Under the dead of night
There in a field of wildflowers
Baby we finally made things right
Where no bands of gold or
Diamond rings or wished of well could hold
More than our hearts of good intentions
More than our promise told

Let's go shall we
On through the majesty
Let's go, you'd never know it
But this was made for you and me, shall we
