

# Worlds Away

BoDeans

Kids on the street feel the thunder beat  
Burnin' to the night  
Tellin' lies with angels' eyes  
Pullin' switchblade knives

Taken lovers walk away  
Roll their eyes  
Some people say we're worlds away...

Johnny runs loaded tommy guns  
Sheri holds on tight  
Romeos and street-heroes  
The promises they hide

Tommy's messed up, that's okay  
Dreamers dream their lives away  
We're worlds away...

Days we fight lonely nights  
With dreams and red, red, wine  
Against the angels, devils cry  
Playin' out their time

And I know what people say, that  
"Love is just a kiss away"  
Worlds away... Kiss away...
