

Bodega Birth

BODEGA

(I use my computer for everything
Heaven knows I'm miserable now)

Endless scroll
Roll out the endless scroll
And the river has an endless roll
Roll out the endless, endless

Enter Bodega:
This is documentary
All day long stare at screen
This is documentary

I fell in love staring at screen
Triple dots I see bouncing
Name lights up, my heart will beat
That was documentary
Born into by what consumes
Love is born but does consume
Bay will burn, my heart will beat
That was documentary

Enter Bodega:
This is documentary
Press record, message received
This is documentary

Time to return Bodega:
Witness documentary
Flesh and mind shall be released
All is documentary

I fell in love, I stare at screen
Triple dots I see bouncing
Two K's seen, my heart will beat
That was documentary
Empty bottle, feel free
That was documentary
All you touch, all you see, all your life will ever be
