See me lazing back, basking in cologne  
In theater air conditioned to feel alone  
A drone kills vigil vigilantes  
Hear an SMS ringing from the backseat  
With kicked up feature presentation proudly sponsored by the Navy  
Was that Spider-Man seven nak  
Or advert for the Navy  
If you want to be a hero  
Here's my number, call me maybe

"Lieutenant Daniels, this is McNulty reporting  
Spotted perp in perpendicular seating"  
"No texts: informing management"

Two TXT's received from perp's grandmother  
Interrupting Oscar nominated ads  
For 1970s fads  
The patrons gleefully cheer  
As the texter is ejected  
The task force is in training now  
Submit or be corrected

I see a field drill of counter-intelligence roleplay  
I see a field drill of counter-intelligence roleplay  
I see a field drill of counter-intel  
Field drill of counter-intel  
A field drill of counter-intelligence roleplay

When you spill all the milk always point to the others instead  
Instead of playing 911, rid all the cops in your head, ah  
When you spill all the milk always point to the others instead  
Instead of playing 911, evict all the cops in your head, boy

In the center of the Times Square  
Recruitment kiosk glares  
They got cheap tix for all theaters of war  
They got orchestrated seating  
They got Jason Bourne proceedings  
For those coming down from fructose  
And Batman NYPD-ing

I see a field drill of counter-intelligence roleplay  
I see a field drill of counter-intelligence roleplay  
I see a field drill of counter-intel  
Field drill of counter-intel  
A field drill of counter-intelligence roleplay

When you spill all the milk always point to the others instead  
Instead of playing 911, rid all the cops in your head, ah  
When you spill all the milk always point to the others instead  
Instead of playing 911, evict all the cops in your head

And talk back to the screen  
Images not holy, no

No reference for sunset  
Advertisements not holy  
If cell lighting really bugs you  
Hold weapon down, McNulty  
Maybe there's an emergency or maybe ask politely

Field drill, counter-intel  
Field drill, counter-intel
