

## For The Record

BODEGA

I'm not too exactly proud of the place I'm from  
But I've been here my whole life so I guess I'll call it home  
In South Carolina a flag still shows the enslavement of our min  
ds  
But in South Carolina I learned from all the times

We went to all-ages shows  
Sunday matinees  
Hanging wondering if the bands would show and even play  
But the bands would come and we'd all sing along  
(All sing along)  
Would they ever know their impact would last so long?

The world is full of lonely places no matter where you're from  
A crowded show  
Familiar faces  
Make me feel at home  
Many friends have come and gone  
But I know what's kept me here  
The message of those songs has sustained me through the years

I heard the word integrity  
I know now what that means  
I learned it first from Black Flag, mohawks, combat boots  
And torn-up jeans

We were more than just a tour date  
You were more than just a song  
We sweat and sang together and that helped us to carry on  
We were more than just a tour date  
You were more than just a song  
We sweat and sang together and that helped us to carry on  
We were more than just a tour date  
You were more than just a song  
We sweat and sang together and that helped us to carry on  
We were more  
And you were more  
We were more  
Just for the record
