

Memorize w/ yr Heart

BODEGA

Memorize with your heart
Not with your head
You have to put your body into it
Do wah do

I've been trying to see the sounds in my head
Been trying to hear the dreams that she thread
Above our bed's a tangled web. Discarded mess
A mess of a bless that says...

Memorize with your heart
Not with your head
You have to put your body into it
Do wah do

Been trying to force these thoughts out instead
But go for a walk and let my lost be lead
And where I'm lead. Right down from ledge
To take it step by step
A step from the ledge that says...

Do wah do
'The only Strokes I was influenced by' she said
'Were the strokes I received from you'
And when we grew all the past was new and we're all part of it
too
