

# Myrtle Parade

BODEGA

Myrtle's from the coast down in Carolina  
Said cultural consumer with her MFA  
Lynch too plays syndicated nostalgia  
SONY purchase just a click away  
I saw your profile standing in profile  
Waiting for the pot at the end of the hallway  
Past the hallway balcony light show  
Cigarette smoke for the Sabbath below

And you're always out of place at the Myrtle parade  
Forced to party and act out the Myrtle charade  
Myrtle charade

And I was followed by two men with stickered Macintosh  
I've seen their show, it's always the same  
Some girl's hands are rubbing over my body  
Click to wipe the slate to type her pen name  
(Erased)

But I'm always out of place at the Myrtle parade  
I just go through motions act out the Myrtle charade  
Myrtle charade

We've all heard of Myrtle but nobody's met her  
Her stale beer sits at the top of a pillar  
She hides her figure in an XL tee  
Unknown pleasures on her back  
I saw her profile standing in profile  
Pillbox down digestive tract  
The laptop men want Myrtle's bed  
Their gonna have to go Wyckoff instead

And it's always out of phase at the Myrtle parade  
We're just cast as background in Myrtle charade  
Myrtle charade

And I was followed by a tall man with his head in his hood  
This time I hope he don't know my name  
Some kind of deals happen once in a lifetime  
Click to wipe the slate and clear all terrain  
(Erased)

I stuck around for lights and the wine  
But never really having a good time  
Myrtle cried 'I deserve so much better  
Been here such a long long time  
Such a long time long time long time

And even she's even out of place at the Myrtle parade  
Forced to party and act out the Myrtle charade
