

Top Hat No Rabbit

BODEGA

It's time to stop Top hat no rabbit
We must stand tall
No ruse inhabit
Be not Top hat no rabbit
We must stand tall
No ruse inhabit

Scene
Rondeau
February
Clock Nine PM
Fragments form together
Join run on the band
In top hat
Crowd's still
Stone pillar by the garden
My stale beer sits still
It's a pillar on the organ

Let pillar of the hat be empty
Don't fill with fear from past
Let pillar of the hat be empty
Stand it tall
Make it last
Let pillar of the hat be empty
Don't fill with fear from past
Let pillar of the hat be empty
Stand it tall
Make it last

But I can break from the past at this moment if I will or can I?
If I will to deny
Testify

To stop Top hat no rabbit
We must stand tall
Be example
Be a classic
Voyage fantastic

Pythagoras defined beauty
Many reduced to one
But many were reduced to nothing as history rolled on
Cyclops defined truly
Many voiced but eye of one
Only one eye have I as history rolls on

Cause history's a rolling stone rolling down a hill side
Whether sliding left or right it's always getting down
And history's a circle
It's turning down a hillside
But whether leaning left or right your body makes a sound

Stop Top hat no rabbit
We must stand tall
No ruse inhabit
Be not Top hat no rabbit

We must stand tall
No ruse inhabit

Well every choice is a negation of another
Yet every step springs from a father and a mother
In crowd light spots fleshy face
Graceful lack of grace
Sings a verse 'Name Escape'
Sings with me taking back days
Does he also eye himself in I?
The singers I yearned for saw themselves in time
Well maybe you're the same as me
We see things they'll never see
But you and I won't live forever
