

Do or Die

Body Count

Do or die
Every night bullets fly
Do or die
Kill or be killed
Do or die
Every night bullets fly
Do or die
Kill or be killed

There's a war going on outside
No one is safe from
You can run but you can't hide forever
You just might see an A-K in broad day
Lettin' off that fully auto spray
At night all the goons come out huntin'
They'll put a gun to your head
You best to give up the bread
My FN Five-seveN
My armor piercing clips
You want my fuckin' watch
You better come correct

Do or die
Every night bullets fly
Do or die
Kill or be killed
Do or die
Every night bullets fly
Do or die
Kill or be killed

You can be out with your kids
A supermarket it doesn't matter where it is
Muthafuckas come in gunnin'
Shootin' anything that moves just to prove
Some bullshit ideology
Learned on the internet they killin' anyone they see
There's no place safe
Not at church or school
It happens every day
People left in blood pools

Look ain't nobody out here lookin' for no muthafuckin' trouble right
But muthafuckas out here got guns and they runnin' up in spots killin' innocent people
Dig this... now if you comin' at me with a fully automatic weapon
I'm not grabbin' a fuckin' kitchen knife a'ight? I'm gonna be armed too
I'm not no fuckin' pro-gun muthafucka
I'm pro stayin' alive

You got a gun
I got a gun
You shoot
I shoot back
You got a gun
I got a gun

You got a gun
I got a gun
You shoot
I shoot back
You got a gun
I got a gun

I don't want no drama
But I'm no fuckin' bitch
You try to fuckin' press me
I'll leave you in a ditch
Everybody's ready
Everybody's strapped
The muthafuckin' cops
Will put two in your back
That's called a double tap
It's meant to make you dead
They might just roll you over
And put one in your head
Anyone can get it
Any day and night
Muthafuckas out dyin' for a gun fight

You got a gun
I got a gun
You shoot
I shoot back
You got a gun
I got a gun

You got a gun
I got a gun
You shoot
I shoot back
You got a gun
I got a gun
