

## Interrogation Interlude

### Body Count

Who are you?

You have fallen into a situation where we now have the upper hand

I alone will decide whether you live or die

You've been in control for too long

This can go easily or painful

It's your choice

Your decision

No more

Stop

Please stop

Answer the questions

You've been brought here for a reason

Answer the questions

There's something you should understand

I have no mercy

You can scream and plead

But until you give me the answer I want

I will find nothing but enjoyment in slowly dismembering you

I'm an expert in the delivery of unimaginable pain

I've actually reached orgasm during torture
