## Body Count

Is it China, is it Taiwan, Afghanistan  
World war  
Is it Russia, North Korea, maybe Iran  
World war  
Is it Jewish, is it Muslim, is it Christian  
World war  
Or the US, maybe NATO, let's kill for land  
World war

Every day I wake  
Every night I pray  
We never know if we gonna see another day  
Could happen so fast  
All of a sudden  
Somebody gets mad and push a fuckin' button  
Our lives don't mean nothin'  
We're just caught in the mix  
Collateral damage of political shit  
Too many damn nukes  
There may be no warnin'  
The sky lights up  
That's fuckin' global warmin'  
The sky lights up  
That's fuckin' global warmin'

Is it China, is it Taiwan, Afghanistan  
World war  
Is it Russia, North Korea, maybe Iran  
World war  
Is it Jewish, is it Muslim, is it Christian  
World war  
Or the US, maybe NATO, let's kill for land  
World war

The news pumps it up  
Is it all hype  
I don't think so it's a shit show  
United States got more enemies than you can count  
And every day we make more  
Inevitable war  
Could happen next year  
Maybe to fuckin' night  
Try to stay calm everybody's got a bomb  
The threat of world war  
But take a look around  
Our own inner cities have turned to battle grounds  
Battle grounds  
Battle ground  
Our own inner cities have turned to battle grounds  
Battle grounds  
Battle grounds

Every day I wake up  
I check outside my window just to make sure I'm still alive  
The way these mutha fuckas are goin' at it  
Any day this shit can come to an end  
China fuckin' with Taiwan

North Korea testin' bombs  
Russia gave a fuck about the Ukraine  
They dared anyone get involved  
Israel and Palestine active as fuck

World war  
World war  
World war  
World war
