Behind The Crowd

Bodysnatcher

Behind the crowd
Behind the crowd

I'll never be the one they choose
I'm always a step behind the crowd
Your pace picks up and I can't make
I can't make a sound

I feel like the one you could live without
The name you'd forget
Someone that doesn't stand out

All I know are backs of heads
Goodbyes and lost friends
So now I'm the one who turns away
Better off until the end

Abandon me because I know you will
Leave me behind when the void is filled
Vanished from your heart
I'll never trust again

Behind the crowd
Behind the crowd

Let me bleed out
Put the knife in my hand
Turn your back and reject the damned
Abide by nothing but my own lies
Look at my face now
I'm fucking hopeless

I'll never trust again
I'll never trust again
I'll never trust again

Abandon me because I know
You will leave me behind
When the void is filled
