

## Bone Casket

**Bodysnatcher**

Painstaking with misfortune  
All I want is the world to give a fuck  
Bad luck is embedded in my skin  
No one cares when you're six feet deep  
In a life of loss with a heart of glass  
I'm shattered and nothing can bring me back  
My world is painted black  
Painstaking with misfortune  
All I want is the world to give a fuck  
My life, isn't worth shit  
So fuck you and fuck this world  
Motherfucker
