Disappear

Bodysnatcher

How the fuck does it feel
To know you're nothing?

Fake it 'til you make it
That won't work here
Either be real or disappear

Stop making all these shows a popularity contest
Don't put the face of a friend on
When you're just a fake
For your own personal conquest

It isn't sly
It's as transparent as a ghost
Weaseling your way through life
Won't get you anywhere
Without stabbing your friends in the back

I'm not fucking deaf
And I hear the words you say
Never fucking forget
The way you used to be

You wouldn't know tough
If it punched you in the goddamn face
You fucking snitch

Don't think you're safe
From these goddamn words
You little bitch
