

## Hollow Shell

**Bodysnatcher**

Get it through your head  
Time was on your side

A wasted existence of a man that's scared of the world  
You've forgotten how to live  
But how can I forgive you when you've done it to yourself?

Your life disgusts me and it makes me fucking sick

Just take a step back and look at yourself (Look at yourself)  
Wasted time  
Alive but not moving  
You want to say you're a man of science  
Yet scared of modern times  
Locked in your own mind

How can you live with what you are and what you're doing?  
Forcing your own mother into the dark  
Festerling and rotting away with you  
How many excuses does it fucking take?  
It makes me fucking sick  
Just a hollow shell  
A waste of life  
A waste of time  
But yet all you've done is make your mother a prisoner  
In her own fucking home

Holding down all around  
Draining everyone now  
I can't lock eyes with you  
King of nothing you'll be crowned

Look forward  
You're ignorant  
Afraid and alone  
Look forward  
You're ignorant  
Afraid and alone

Just take a step back and look at yourself (Look at yourself)  
Wasted time  
Alive but not moving  
You want to say you're a man of science  
Yet scared of modern times  
Locked in your own mind

Helpless  
Helpless and complacent  
You fucking wasted your life
