

Infested

Bodysnatcher

I've bled before I'll bleed again
Carve it out
This torture ends
I've bled before I'll bleed again
Carve it out

Kill the parasite

An endless war to break
The walls of perception
These wounds will heal
I will fight again

Once again my joints are welded together
Shackled by static in this somber chamber
Fuck what you say it won't get through
Won't waste my time trying to
Wake us from this nightmare
The dull roar of the waves
Fills shallow graves as we all sink
To the bottom of the lake

Rip the fangs out of my head
Carve it out this torture ends

I write line after line as it sits stagnant inside
My self-inflicted decline
A parasite of the mind

Infested

We're meant to suffer in the noise
We're meant to live in the black
I see the light but still
My eyes keep rolling back

Ritual of the leech

Siphon the sanity
Destroyers of peace
A plague on my humanity
Medicated
Still no solution
Dependency on prescribed pollution
Monotonous existence without a purpose
Forever feasting under the surface

Kill the parasite

Rip the fangs out of my head
Carve it out this torture ends
Rip the fangs out of my head
Carve it out this torture ends
I've bled before and I'll bleed again
Carve it out this torture ends
