

# Never Homesick

**Bodysnatcher**

Collections collecting dust  
Iron turned to rust  
Collections collecting dust  
Iron turned to rust

Existence, I'm just getting by  
Subsistence, you didn't even try  
I hope you live  
Knowing that you let me down  
A long life full of shame  
You'll never change

A home now unknown  
Now you're all alone  
A home now unknown  
Now you're all alone

A never has been, phony fucking prick  
You're not a man  
You're why I'm never homesick

A never has been, phony fucking prick  
You're not a man  
You're why I'm never homesick

Collections collecting dust  
Iron turned to rust  
Collections collecting dust  
Iron turned to rust

An inconvenience to you is all I was  
This can't be undone  
If only she knew what you'd become

Last words unheard  
You selfish cheap coward  
You were meant to be a father figure  
But stood with your back turned  
Last words unheard  
You selfish cheap coward  
You were meant to be a father figure  
But you stood with your back turned

I can't wait until you hear these words  
I hope it stings and you feel it burn  
I can't wait until you hear these words  
You selfish cheap coward

It'll bring a smile to my face  
Open the top drawer  
Load your gun and take a taste
