

Torment

Bodysnatcher

You've forgotten all your friends
Everyone's a stranger
You looked at me with fresh eyes
I should have just lied

When you asked what was wrong
And you tried to get up
You fell straight to the floor
I stood at the door

I didn't know what to say
This day is on repeat
It clouds my thoughts
Who knew it would end this way?

It's like your slate's been wiped clean
Everything was just a dream
Your body has been poisoned
And your memories taken
You've forgotten everyone now
You've forgotten everyone now

You were all alone in the end
You repeated yourself
And asked the question again

Decaying and brittle
You could barely speak
Decaying and brittle
You looked so weak
It was only days later when you left
You were set free with a smile on your face
Now it's all I can see

You were dying it would be any day now
Tears filled your eyes as you remembered
Everything came back, it wasn't a dream
Your world turned black
Back to reality

Everything came back, it wasn't a dream
Your world turned black
Back to reality
