

Value Through Suffering

Bodysnatcher

Value
Through suffering
Value
Through suffering

Struggling has a sense of paving the way
Loss, stress and grief have shaped my life
Barely scraping by day by day
Will slowly change your view over time

Learning to value what you're dealt
No fucking handouts
Playing the cards that you're given
Forces you to make it fucking work

Complain just a little more you soft ass bitch

We're not the same
We're not the same
I see the value through suffering

Silver linings turn you bitch made
Be proud you came from nothing
Walking through the rain-tattered clothes on your back
It makes you stronger than the rest

I haven't been handed a single fucking thing

We're not the same
I see the value through suffering
We're not the same
I see the value through suffering
I see the value through suffering
I see the value through suffering
