

Wired For Destruction

Bodysnatcher

Wired for destruction
Does this make an impact
We forget the voices of the dead
But do our words even last
I'm at an impasse

This fear holds me back
The stress builds everyday
I'm wired for destruction
Am I okay

Wired for destruction
I'm only hurting myself

I'm so fucking scared
Do I have a soul
Is this life even real
Am I losing control

Envious of the content
My intentions are pure
I can't shake it
I can't fucking take it
Where do we go

Where do we go

Terror of the end
Don't send me away
All of my memories fade
Please don't call my name

Wired for destruction
Does this make an impact
We forget the voices of the dead
But do our words even last
I'm at an impasse

Uncertainty
It takes over slow
It crawls up my spine
I've never had control

I'm scared I don't have a soul
