Don't expect anything from me
You're standing still
Don't make that expression anymore
Every time we talk, I exhale

I want to avoid time
I hate it more when you look at me
You're the one I want
So I'll give you the ring in my middle finger

Hater hater hater
Hello my yellow flavor
Don't say that, listen to me
And everything will come your way

Don't be impatient and whine
You didn't look back at me
I don't want boring conversations
Just thinking of you my head hurts

I want to avoid time
I hate it more when you look at me
You're the one I want
So I'll give you the ring in my middle finger

Woo sorry baby
You always said
I'm your lady
Oh honey
Would you stop
Your baby
Take your dirty diamond

I want to avoid time

I hate it more when you look at me
You're the one I want
So I'll give you the ring in my middle finger
