

## Cardinal Sin

**Boldy James**

When I point, either way it go, I'ma get my point across  
Point blank, period, I made it my point  
Caught him with a hot thot joint, forever chase cheddar  
They say never say never, but I never had a high point  
On the east side in the trenches, we call it Die-troit  
Part of the city I'm from ain't nothin' like yours  
No offence, when niggas needed work, I must sold 'em bricks  
Showed 'em that it's strength in numbers and ain't no straddlin'  
' the fence  
Never switched up on my brothers, trust, that ain't even up for  
discussion  
Come with consequences and repercussions  
For thinkin' you the exception to the rule in the handbook  
Difference between me and you, Cooley and Cranbrook  
I been schooled, wait, told you you niggas been fooled  
Could've pulled a nutty, he lucky I'm in a good mood  
Ain't no pullin' up unannounced, get your shit chewed  
The fuck is this? Clip up, oh shit, that's just Cruz
