

## Creature Immortal

**Boldy James**

If you ain't on the time I'm on, then I ain't got no kickers  
The blow, I can mix it, I'm tapped in from Oakland to Memphis  
Boston to Portland, you get sent off to the trumpets and organs  
In my cell feeling like Mel' and YNW Bortlen  
Fuck an endorsement, I'm sponsored by the drugs and extortion  
'Fore them members get striked out, anything of importance  
Creature immortal, you starstruck, to me it was normal  
AR tucked, but that's just my way of keeping it cordial  
I'm diplomatic, no Freeky Zekey, a Hell relic  
In the trap with the Reese's Pieces and them twelve twelvies  
Used to shop at Till 12, at Macomb Mall  
Now I weigh up on them whale scales with my home dawgs  
Big Iraqs on deck, got killers on call  
The shit I'm on myself, spanking shit, know I brung my belt  
OG'll go up top, then throw you off a ocean cliff  
ETA boys, we the ones be standing over shit  
Let's get it

Long as we talking 'bout some pape', it don't make me no difference  
You really spend and hit my line, you tryna save you some chicken  
That bag on my ass at full speed ain't come with no limit  
That door still open for business, like I just cut the ribbon  
Made a killing out the streets, I shine like this fully blown  
New piece on the way, they ain't surprised it's gon' be VS stones  
Work speak for itself, I stepped on it with eleven toes  
And when the motion slow up, I'ma keep stepping on  
Same time, it's on the yacht, let my son drive the boat  
Same time, looking for a plug out in Mexico  
Made a couple boss moves, did this shit better than hoes  
My dawg got Migo on the line beggin' to send the dope  
Champ of the road, shit, I'ma need all the pills  
Too official in the streets, I might call this shit myself  
This ballin' shit is fundamental, never think we needed reps  
Ice-dancin' on the buffs, like I lost a couple steps  
Made the weight disappear, muscle ripping through my tech  
227, 50 Gue Wop, never wropped another set  
Always pull up with a check, safe to say I'll come correct  
Always droppin' off a pack, safe to say I'll come collect
