Nah nah nah nah  
Nah nah nah nah

Lost everything I ever loved, now I can't feel  
Don't even tell me that you love me if it ain't real  
Poured up off a eighth, love to take pills  
Froze off the drank like I took a hundred DayQuil  
Shit my mama used to say, I wasn't hearing it  
Never had a job, but on the block, I had experience  
Only advice I ever took is serious  
Was you never put a question mark after a period

Numb to the bullshit, I done lost touch  
Can't touch what you can't feel, I been out of reach  
Turned crumbs into bricks, I done bossed up  
Caught the rush, jumping out my sleep, phone finna die  
Lit the weed 'fore I wipe the coal out my eye  
Pouring out my heart, it feel like my soul finna cry  
6-3s over the Viking stove, lit the eye  
Twist down the whole bricky 'fore I spin the carousel  
I do this shit for Tony, Jamie, Ariel  
Jada, Jaren, Maxine and Ruby Nelle  
She pray for me every time that I shoot a jam  
Cause to my momma, I'm a real black Superman

Lost everything I ever loved, now I can't feel  
Don't even tell me that you love me if it ain't real  
Poured up off a eighth, love to take pills  
Froze off the drank like I took a hundred DayQuil  
Shit my mama used to say, I wasn't hearing it

All of this hurt in my heart, it got a nigga painting  
I see murder in the park as a adolescent  
Had me stressing hard, looking at that Elvis Presley  
When it got dark, even my shadow left me  
Found out who was for me and who really loved me  
And who gon be there when it count when the shit get ugly  
Hit the dope over the head then I did the Dougie  
Way the work wet, yellow brick like a pissy Huggie  
Both of my phones went dead, shit got me missing money  
Thuggin' on a quest, poured up with my nigga Hully  
All of the sticks and the drums, they come with hang time  
Nigga rub me the wrong way, he gettin GameTime'd

Lost everything I ever loved, now I can't feel  
Don't even tell me that you love me if it ain't real  
Poured up off a eighth, love to take pills  
Froze off the drank like I took a hundred DayQuil
