Let's get it

We game timing for these niggas that be fake grinding
Got everything, hoes sell it, ain't no brake lines
Baselining to the chicken while I'm facetimeing
Truck driving, screw them blues closed, we be freight lining
He faking jack, he run the streets and chase commas
But will he make it back in one piece is what I can't promise
Game timing while these niggas out here fake grinding
Plugged out in St. Thomas, niggas better pay homage

We game timing, with them joints the hound dog way
Downtown Detroit feeling like it's Groundhog's Day
Soon as a nigga touch down I'mma call Jay
To shoot me through the town so I can bump into my dog Ray
Making my rounds out of bounds I had to call Tre
That first shit was light brown but now its off-gray
We get that strong dog and that butter soft yay'
Been it for the long haul tryna fill up a safe vault-
Full of hunchos, punching the code, I'm finna shake off
If anything go wrong on that rode then it was they fault
I'm too premeditated and the coupe fully decorated
Bossing up on niggas like I never heard of lay-offs
Ferris Bueller in the trap, I never took a day off
All this juice got me medicated, tryna get this eight off
We hall of fame legends with the title finna take off
Balling like it's game seven, finals in the playoffs

We game timing for these niggas that be fake grinding
Got everything, hoes sell it, ain't no brake lines
Baselining to the chicken while I'm facetimeing
Truck driving, screw them blues closed, we be freight lining
He faking jack, he run the streets and chase commas
But will he make it back in one piece is what I can't promise
Game timing while these niggas out here fake grinding
Plugged out in St. Thomas, niggas better pay homage

We game timing, all the licks all the stains
All them niggas I took down for them bricks of the 'caine
Cane Corso, dark ten made yo' boy a mark man
Call my youngin' that be murdering niggas- Darkman
You don't want to go to war with the chemist- smart man
All my uncles in the furniture business, no
Off the drank, hungover finna park the Ram
Playing with the drum rollers like a marching band
Remember get pulled over by the narcs and ran
Hopping out with the strig, dipping from a big beam
Was dwelling on the past about some shit I should've been did
Remember me and Swali shooting up them niggas shindigs
Surprise party, picked him up just like a big kid
Then dropped his shit off, they say my new shit is addictin'
Smoke an ocean grown, the caviar just like some fishes
Pockets on Common, Jay Will I got the big head

We game timing for these niggas that be fake grinding
