Monte Cristo

Boldy James

What else?
Where we at?
Blockworks, let's get it

Before the COVID, I been on, mask and gloves when my man send it
Transcended, still gettin' money in the bandemic
Ceramic coating on the palette of porcelain
Boxcutter slicin' that silver pack with the scorpion
Back at the orphanage, it's like land of the misfits
When I cut the food, look like I'm mixin' Manwich with Bisquick
Just hand me the shift kick, a blender, and a sifter
Spin a brick of him and her, I had them bitches playin' Twister
Thousand grams of cut, dump it all in the mixer
Turn one into two, and make her kiss her twin sister
I turn the oven hot, give it a fever blister
He said he got them ki lines, my people need a picture
Cuban links over the stove, keep the blinds closed
Give me a blindfold, I can whip an E with my eyes closed
Turn a nine into five fours, let 'em fly whole
Collectin' my pros and still got an extra nine Os
It's Blocks
